EVERY FAMILY HAS ITS SECRETS

An unexpected storm strands a family gathered to celebrate the 50th wedding anniversary of two elderly parents, Pietro and Alba, on the small island of Ischia in Italy. The numerous relatives are forced to live together under the same roof for two days and two nights with no way out. The storm that plagues the island inevitably ends up ruffling everyone's spirits.

The lives of the siblings, cousins, nieces and nephews, become ineluctably intertwined, lingering between a past which rehashes old and forgotten disputes, a present which rekindles unresolved conflicts, and a future which appears to be uncertain for everyone. The island morphs into a labyrinth of passion. Each person must reckon with their own personal, sentimental, family, or professional circumstances.

Kapuscinski (43) is a brilliant veteran journalist, an idealist and a friend of lost causes and revolutions.

At the Polish Press Agency, he convinces his boss to send him to Angola where a bloody civil war has broken out on the eve of the country's independence. He embarks on a seemingly suicidal road trip into the heart of the civil war. There, he witnesses once again the dirty reality of war and discovers a sense of helplessness previously unknown to him. Angola will change him forever: it was a reporter that left Poland, but it was a writer that returned.

# SALYUT-7

A FILM BY KLIM SHIPENKO

**The storyline is based on actual events of 1985.**

Salyut-7, the unmanned Soviet space station, was orbiting Earth when it suddenly stopped responding to signals from Ground Control. The fall of the station, pride of the soviet science and space industry, would not only damage the image of the country, but also bring about tragedy, as well as the loss of human lives. To prevent a catastrophe, astronauts will need to reach the station and identify the cause of the breakdown. However, no one has ever docked with an uncontrolled space station in space before. To this day, this remains the most technically complicated mission in the history of space navigation.
